About our Dying to Talk Cards

This online version of the Dying To Talk cards can be used to help you talk about your wishes and preferences for your care at the end of life.

Talking in advance can reduce stress at the time of a serious illness and can help your family to make decisions about your care if you can no longer make them for yourself.

Palliative Care Australia respectfully acknowledges that the Dying to Talk card game was guided by Coda Alliance’s Go Wish card game developed with the Archstone Foundation.
